 Full text of the Proposed Constitutional Amendment

In passing the Submerged Lands Act, Congress sought to return the title to submerged lands to the states and promote the exploration and development of petroleum deposits in coastal waters. Under provisions in "§ 1312. Seaward boundaries of States" of this act, the citizens of the State of Florida wish to extend their state boundaries to 125 miles from shore, except when that would interfere with other sovereign nations at which point the extension would be half the distance to that sovereign nation, and recover oil and gas from the submerged lands.
